**Listing of Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-25 (Canceled)

26. (Previously presented) A method of delivering an oligonucleotide across a mucosal membrane in a human, comprising introducing to the mucosal membrane a non-parenteral multiparticulate formulation comprising:

a plurality of carrier particles;

an oligonucleotide to be delivered across a mucosal membrane; and

capric acid.

27. (Previously presented) The method according to claim 26, wherein said oligonucleotide and said formulation is administered orally.

28. (Canceled)
